# Chaudhary Foundation responds to the COVID 19 Pandemic by supporting the Nepal Government

By **CSRBOX** On 21 April 2020

As the world witnesses the Coronavirus (COVID-19) pandemic spread across the globe at an unprecedented rate; CG Foundation, the CSR arm of the first billion-dollar conglomerate based out of Nepal- CG Corp Global; is dedicated to utilizing its business resources and global expertise to help the people of the nation. The Foundation has been working tirelessly since the pandemic breakout to address the most critical issue in Nepal-the medical infrastructure.

equipment and gears for the medical staff, front line worriers, ill residents and the vulnerable people of the country; the foundation is working relentlessly to not only procure material but is also taking the ownership of ensuring the materials reach its correct audience.

As a part of its 3 phase initiative to respond to the pandemic, the first phase saw the foundation distribute medical supplies including Personal Protective Equipment (PPE) and treatment supplies to 48 Centers in seven provinces.

As they moved on to the second phase, the biggest challenge the government was facing was testing kits. The PCR Reagents and N-95 masks were not easily available and thus through their global contacts, the foundation managed to procure and hand over 1000 PCR Reagent (COVID-19 testing kit) to the government. Amid a function organized at Ministry of Health, the kits were given to Health Minister Bhanubhakta Dhakal.

Furthermore, the third phase saw the foundation focus on the high risk zones of the country. Having detected 3 high risk Provinces in Nepal basis the return of large number of immigrants from India, the Foundation distributed protective gears to these areas. Medical equipment such as N95 masks, sanitizer and Personal Protective Equipment were handed over to the Chief Ministers of the respective provinces for distribution.

The Chairman of CG Corp Global and the head of Chaudhary Foundation, Mr. Binod Chaudhary who is a highly respected philanthropist in Nepal known for his historic contribution in rebuilding Nepal during the 2015 earth quake stated “Due to acute shortage of necessary medical equipment and infrastructure in the health sector, we cannot deal with this pandemic without strong collaboration with the government,” he stressed.

“Our endeavors have been receiving huge support from provincial governments. We are thankful to the Chief Ministers for being sensitive to the crisis and coordinating with us. So far the Foundation has already provided around 1000 PPE to various hospitals. Furthermore we have also provided 1000testing kits, 1000 personal protective gears and 1000 N95 masks to the provincial governments and their dedicated hospitals. I believe that the PCR Reagents we provided will speed up coronavirus detection in the country. “, he added.

March 26, 2020, 9:14 a.m.

Whenever there is a human crisis and disasters, chairman of Chaudhary Group and Nepal's only Forbes-listed billionaire, Binod Chaudhary has been in forefront. As all previous crises in the past, Chaudhary joins with huge support to contain the spread of Coronaviurs (COVID-19).

Along with him, his three sons Nirvana, Rahul and Varun join the campaign. His eldest son Nirvana looks all the efforts backing his father in the country through Chaudhary Foundation.

Chaudhary Foundation has said that it donated Personal Protective Equipment (PPE) and logistic to provide frontline medical workers. The foundation said that it will supplement the Government of Nepal's ongoing efforts to contain the spread of novel coronavirus disease (COVID-19).

Chairman of the foundation Binod Chaudhary twitted that the main challenges at present is to evaluate need and risk in Hospital and Quarantine and Isolation Centers and provide required equipments. He said that Foundation is able to make some success to provide equipment to health workers ensuring their safety.

He said that the Foundation handed over PPE to Palpa Hospital, Corona Special Hospital (Bhratupur), Sahaj Health Foundation (Gaindakot), Pitaunji Health Post (Bhedabari, Primary Health Center (Dumkauli), Lumbini Provincial Temporary Corona Hospital, Bhim Hospital Bhairawa, Ayurvedic Hospital Dang,

Provincial Police Hospital (Nepalgunj). The foundation provided PPE, Oxygen producing including most essential goods including surgical mask.

Chaudhary himself distributed logistic like isolation kits, medical equipments and masks and PPE to provincial 4 and 5 representatives. “We are working on more dispatches throughout the country and managing logistics thru coordination with the govt.”

The foundation also distributed necessary health equipment in major health centers of province 1, 6 and 7. He said that the present challenges are equipment related to producing oxygen and Ventilators. There are scarcity of such equipment in all over the country and lack of human resources. We are ready to work in collaboration with concerned ministry and offices.

He said that the present need is not a money but easy supply of these equipment. He said that the foundation is very sensitive and alert of the safety of front line health workers. “Thus, we are heading to provide all necessary equipment including PPE in frontline health workers of all vulnerable areas,” said Chaudhary.

He also said that other priority and challenges is availability of test kits. “We are in ready position to import kits from outside the country. However, we are yet too able to import them. Our team is working to facilitate transporting the goods. I am confident that we will find the solution in this regard very soon,” said Chaudhary.

“These supplies will be used to protect health workers during treatment of any suspected COVID-19 cases at designated hospitals,”

He said that the foundation has started a helpline to supply PPE and all essentials equipment to all highly risk treatment centers of COVID-19. He said people shall call following numbers 9851172398, 9801067443 and 9802020953.
